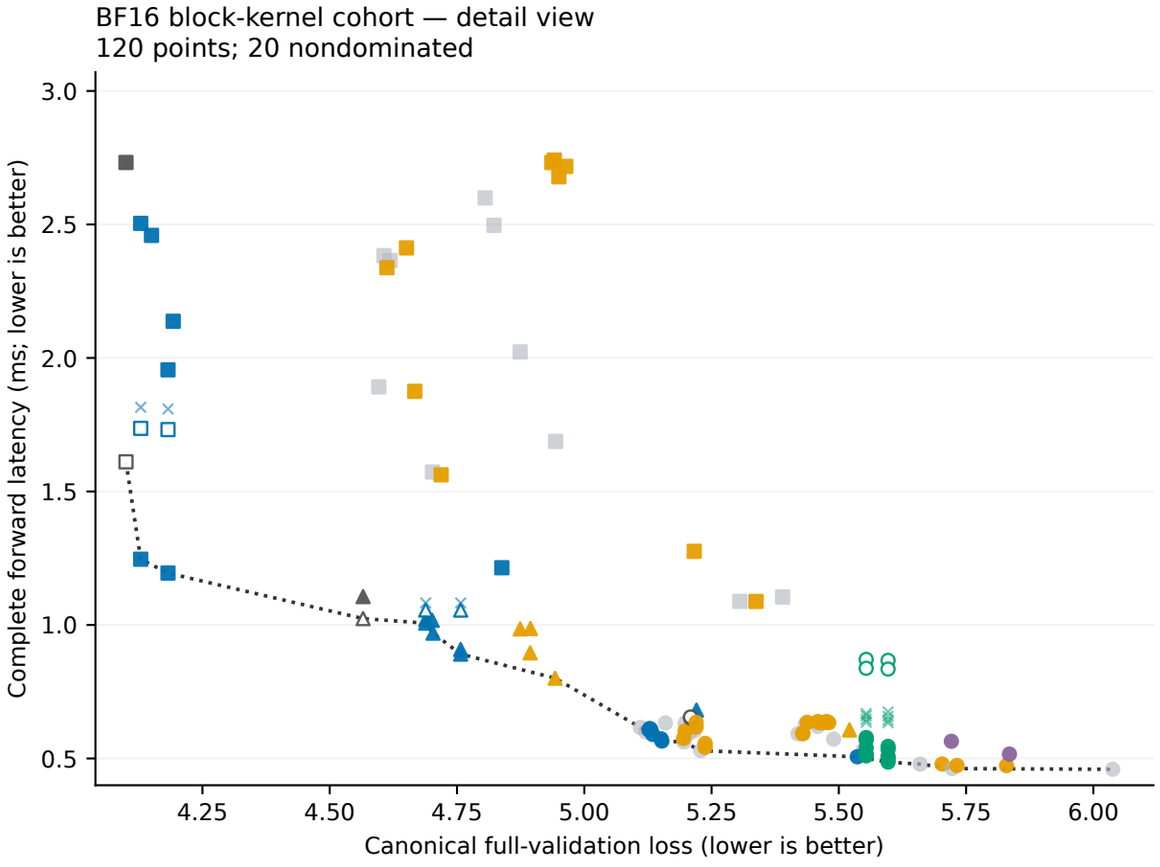
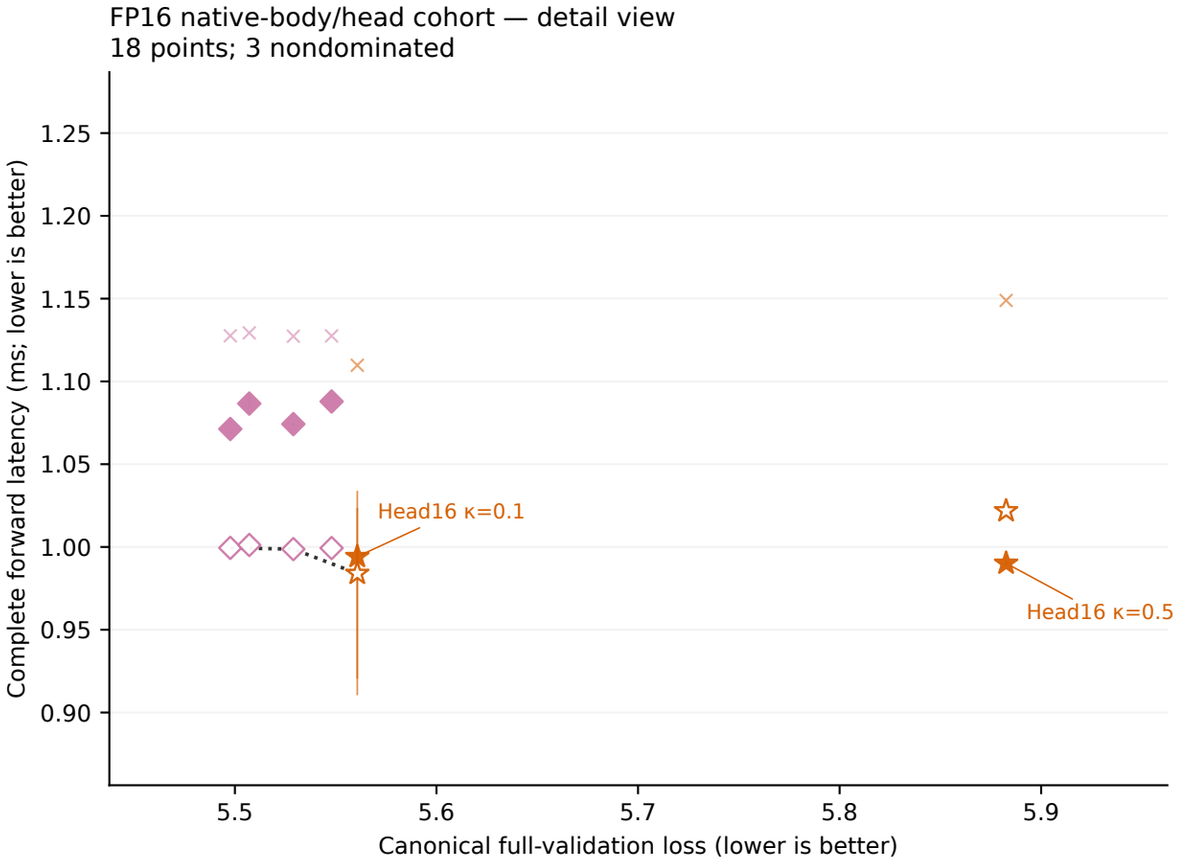
# Frontiers within the declared execution cohorts

BF16 block-kernel and FP16 native-body/head measurements have separate envelopes
Different sessions remain descriptive within each panel; panels use their own labeled scales.





Base: native/kernel
Other scalar recipes
Scalar T2/Ph
Scalar T7 recipes
T2 corner tiles, head off
T7 corner tiles, head off
Head8 tiles (Ph / Ph+head)
Head16 tiles (Ph+head)
14M
31M
70M
Open: native dense execution
×: no-skip control
Observed point-estimate envelope
